NEW YORK, September 28, 2022 — Effie Worldwide has announced the 2021 Effie Effectiveness Index (effieindex.com), the annual ranking of the companies behind the world's most effective marketing efforts. AB InBev, McDonald's, Omnicom, McCann Worldgroup, FP7 McCann Dubai and Special Group were named Most Effective Marketer, Brand, Agency Holding Group, Agency Network, Agency Office and Independent Agency, respectively.

"The 2021 Effie Index reflects work achieved during one of the most challenging periods in recent history. The brands and agencies included in these rankings have shown a relentless commitment to marketing effectiveness, and represent the tenacity, agility and creativity across our global industry," said Traci Alford, Global CEO, Effie Worldwide. "Congratulations to all of the top ranked companies for continuing to deliver ideas that work and grow your businesses."

Earlier this year, Effie Worldwide announced that it had evolved the Effie Index calculation method from a linear to exponential scale in order to further recognize the most effective marketers each year. More information about how the Index rankings are calculated can be found [here](#). The update follows a one year pause of the Effie Index, as a result of many Effie Awards programs going on hold in 2020 due to the impact of Covid-19.

The 2021 Effie Index rankings reflect the performance of more than 4,500 finalists and winning entries in one global, four regional and 47 national Effie Awards competitions held around the world from January 1, 2021 to December 31, 2021.
